

# What Are You Thinking About?

As a class, we are going to try and figure out what the deal is with fake videos? Or, maybe we will think about it as - what's the deal with the real videos? What is it about a video that makes us stop and watch or just scroll on by.

Our challenge is to identify some big questions we have that will help us figure out what science concepts we need to be able to share our evidence based thinking about how we communicate.

**\* Required**

1. Rough Draft Thinking: Why do you think we perceive videos the way we do? You don't need to include big science ideas but you should connect your thoughts and include evidence to support your thinking. \*

---

---

---

---

---

2. What can we investigate to help us figure this out? Make sure to specify what outcomes from your suggested investigation would provide productive evidence for us. \*

---

3. What are some big science ideas we need to consider and possibly begin to understand to figure out what is going on? \*

---

How well do you understand some components of this system?

The following questions are on a scale (5 = complete understanding, 1 = no idea).

Remember, to think about how each part relates to our bigger question about how communication works. If you know how to fix a broken screen on a phone, does that understanding help explain our bigger question?

4. How are these videos made? \*

Mark only one oval.

	1	2	3	4	5	
Totally understand	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Um, what is that

5. How do I see these images? \*

Mark only one oval.

	1	2	3	4	5	
Totally understand	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Um, what is that

6. What is happening in my body to let me see these images? \*

Mark only one oval.

	1	2	3	4	5	
Totally understand	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Um, what is that

7. Click the day you responded

Example: January 7, 2019
